

### **Restoration Education Sponsorships**

There are 100+ kids in the Barrio Suyapa in El Progreso, Honduras. These children are considered “at risk” for falling into the saga of gangs, prostitution, etc... We have begun working in this community to help these children go to school and learn the necessities of having a bright future in Honduras. We have built a Learning Center where these children can come after school for help with their homework, learn a trade, life skills, and English. Some of the children also need financial help purchasing their uniforms, school supplies, backpacks and books. Education in Honduras is not free...No child can attend school unless he/she has the above mentioned items. Your donation will help these children be successful!

If you are interested in sponsoring a child in this program....please email [Rhonda@hearts2honduras.org](mailto:Rhonda@hearts2honduras.org) to be matched with a child. The sponsorship is \$30/month and you may set up recurring payments on our website or through your online banking.

Please help us “break the circle of poverty, one child at a time”.....
